

WWFF LOGSEARCH

Activators are encouraged to forward their logs to the respective National co-ordinators, for upload to the WWFF LogSearch facility.

Here, both activators and hunters can keep up to date with their progress.

WORLD WIDE FLORA & FAUNA IN AMATEUR RADIO (WWFF)

Promoting portable amateur radio operation from designated nature parks and protected nature areas all around the world.

WWFF

An international program.

WWFF is an international program, promoting portable operation from designature nature parks and protected nature areas all around the world.

The WWFF program wants to draw attention to the importance of protecting nature, flora & fauna, whilst giving the ham radio community an interesting activity
There are 41 participating countries in the WWFF program.

WWFF

In Australia.

The Australian (VKFF) program commenced in March, 2013.

In Australia, qualifying parks are National Parks.

There are over 600 parks in all of the States & Territories to choose to activate from.

Each Australian National Park is issued with a unique VKFF reference number.

WWFF

Awards

WWFF features a global award program for all hunters and activators of WWFF references.

The participating national programs in WWFF also maintain various national award programs for hunters and activators.
